U.S. NAVAL HOSPITAL GUAM
PSC 490 BOX 7607
FPO AP 96538-1600

IN REPLY REFER TO:

1 Jul 2016

From: Commanding Officer, U.S. Naval Hospital, Guam

Subj: ENVIRONMENTAL MANAGEMENT POLICY STATEMENT

1. U.S. Naval Hospital (USNH) Guam is committed to operating in an environmentally responsible manner. The Chief of Naval Operations has defined the environmental vision of the Navy as "a Navy recognized as an environmental leader while effectively executing naval operations."

2. Through leadership and personal commitment, the chain of command will ensure that all staff (i.e., military, appropriated fund civilian personnel employee (i.e., General Schedule, Wage Grade, and Wage Supervisor), and contract personnel) prevent pollution and protect the environment as part of their mission. In order to achieve this goal, I support and expect all staff fully comply with the Department of Defense Instruction 4715.17, Environmental Management Systems, and do the following:

a. Implement pollution prevention and good environmental management practices at the earliest stages of planning, design, and procurement of facilities, equipment, and materiel.

b. Ensure that all staff complies with applicable federal, state, and local environmental legislation and regulations as well as Navy policies.

c. Emphasize reduction, reuse, and recycling of raw materials and waste products to minimize environmental impacts when pollution prevention is not feasible.

d. Continually review, measure, evaluate, and improve environmental standards, practices, and performance. Provide a method to ensure program success by setting objectives and targets and defining plan of action and milestone dates.

e. Provide outreach to and partner with federal, state, and local governmental bodies when possible. Educate the community as appropriate about our environmental practices, and especially successes.

f. Minimize the impact to mission readiness while following the above guidelines.

3. USNH Guam will excel in all aspects of our work and strive for recognition as a model of environmental excellence. Each staff, regardless of position, rank, or function, has a significant role to play in achieving this goal.

A handwritten signature in black ink, appearing to read "D. Cornwell", is positioned above the printed name.
